Stamps — Quarterly Supply to Branch depots -
South Kanara Dt. — Sanctioned

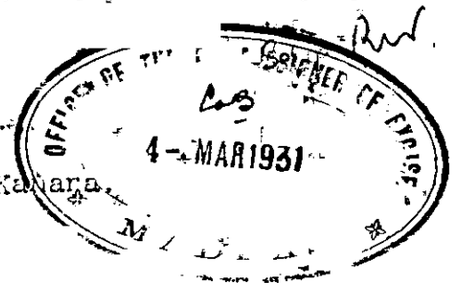
note B 28-2-31 E1252

Ref.No. G.1-4225-30. | South Kanara Collector's Office,
Mangalore, dated 25th Febry.1931.

From

G. W. Wells, Esq., M.A., I.C.S.,
Collector of South Kanara.

MTS 204



To

The Secretary to the Board of Revenue,
Land Revenue and Settlement,
M a d r a s.

Sir,

Stamps - Quarterly supply to Taluk offices.

Board's Proceedings R. No.176 Mis., dated 26-5-1928.

I invite a reference to rule 6 of the rules at page 207 of the Stamp Manual permitting supply of stamps with the sanction of the Board to branch depôts quarterly instead of monthly and the corresponding rule in the tentative rules lately communicated.

(ide Rule 8 on p.48 (T) B.P put up in another connection)

2. Stamps are being supplied to branch depôts now from the District Treasury monthly. Three main routes have been selected; on a holiday, a clerk, the shroff and the golla go on these routes, one in each direction in charge of sealed boxes containing the -- stamps in order to distribute them among the branch depôts. The average cost as travelling allowance incurred per month is Rs.28-1-0. This item of recurring working expense is therefore nearly Rs.340/- per year: whereas, if the supply was made quarterly, the savings would be 340 x $\frac{3}{4}$ = 255 Rs. as only four trips have to be made -- instead of twelve.

3. The question of adequate storage room and receptacles has been examined. Two taluks have no difficulty to receive quarterly supplies straightaway. As regards others, storage -- receptacles have to be supplied. Though it is not possible to estimate with accuracy their cost now, it is probable that it may be in the neighbourhood of Rs.700/-. It is not possible to --

provide them in the running official year both for insufficiency of time and of funds but they can be supplied in the forward year.

4. Compared with the annual avoidable recurring expenditure of Rs.255/-, the initial cost is very little. I therefore request the favour of the Board's sanction for the introduction of the method of quarterly instead of the monthly supply presently in the Puttur and Karkal Taluks and in the coming year elsewhere.

Your obedient servant,

A Krishnamurthy AG/1/31

[Stamps - Quarterly Supply to Taluk offices - South Kanara - Dt]

From the Coll. of South Kanara

CR No 204 Mis/31

pp. 1-2 cf. Please see letter below from the Coll. of South Kanara.

Under rule 6. of the Subsidiary p. 247 (S.M.) rules of S.O. 61 Stamp Manual all branch depots are required to keep a supply of stamps equal to the probable demand for one month. The Bd may however direct under S.O. 61 that the supply to be kept in any branch depot or depots shall be equal to the probable demand for three months.

pp. 1-2 (3) In Dec 27, the Coll. of Ganjam requested that sanction may be accorded under S.O. 61 for the maintenance of 3 months stock in all the Subtreasuries of his district. The Bd then made this a general question & requested the other Colls to report any special difficulty that they may anticipate in their dts on the introduction of the Scheme: After an exa- pp 4-5 (2) mination of the replies received from pp 47-5: (4) Collectors the Bd ordered in B.P 176 Mis dt p. 53 (5) 26-5-28 that the matter need not be considered until after the new Treasury

Sadd

Supply Scheme & incidents connected with the Treasure Come into full working order: Now that nearly three years has elapsed since the introduction of the Scheme, Collectors should be better able to say whether the Scheme can be introduced generally in the case of all Subtreasuries: It appears that Collectors may be asked to offer their remarks on this question

Yes
10/3

There appears to be no necessity to make this a General question.

The Bd has power to order (under the existing rules and under the new Subsidiary rules to be published shortly by Govt) that the Supply to be kept in any particular branch district or district shall be equal to the probable demand for 3 months.

Even in 1928, the time calculated by Mr. Kamara kept no objection to send 3 months' supply to Cuttack treasuries - Rs 45 (3). Since the present Cuttack treasury is to be brought into line at once in 2 Talukas & Puri in 4 or 5 in the remaining Talukas.

The Collr's proposal may be sanctioned

Yes
